

CANDACE TARIRO HUNZWI

Accra, Ghana | P: +233 500 571727 | candace.hunzwi@gmail.com/candace.hunzwi@ashesi.edu.gh

EDUCATION

ASHESI UNIVERSITY Accra, Ghana

Expected June 2025

Bachelor's Computer Science

Mastercard Foundation Scholar Program Recipient, Dean's List 2022-2023

Relevant Coursework: Data Structures & Algorithms, Machine Learning, Object-Oriented Programming, Algorithm Design and Analysis, Artificial Intelligence, Discrete Structures & Theory, Software Engineering, Web Technologies, Operating Systems

WORK EXPERIENCE

HP TECH VENTURES

Corporate Venture Capital & Business Analytics Remote Extern

Dec 2023 - Feb 2024

- Cleaned, processed, and analyzed over 20 large datasets using OpenRefine, Excel, and SQL tools to uncover trends, summarize critical metrics, and provide actionable insights.
- Developed market maps and visualizations to present findings, enabling informed investment decisions by recommending 5 high-potential startups for due diligence.
- Conducted in-depth research on startup metrics, industry trends, business models, and product differentiation strategies to identify competitive advantages across sectors.

PRINCETON UNIVERSITY

Research Software Engineer Fellow

June 2023 - Sept 2023

- Added support for version 5.0 of the Nasdaq TotalView-ITCH protocol, including new message types and formats, ensuring compatibility with the latest data standards.
- Expanded unit test coverage and improved error-handling mechanisms to detect corner cases, enhance maintainability, and manage large-scale financial data efficiently.
- Implemented logging with Julia's built-in module and configured automated tests on pull requests, streamlining the development workflow for future contributors.

ECONET WIRELESS ZIMBABWE

Quality Assurance Engineer (Intern)

May 2023 – July 2023

- Partnered with 12 developers to identify, troubleshoot, and resolve non-functional code issues using Agile methodologies and tools such as Jira, Swagger, Java, and Android Studio.
- Managed and tested over 13 tickets daily across multiple projects, including the Smart Parking System, ensuring seamless code integration and delivery.
- Conducted comprehensive testing procedures to validate functionality, enhance product reliability, and maintain high-quality software standards throughout development cycles.

PROJECTS

SHONA GRAMMAR AND SPELL CHECKER DEVELOPMENT

June 2024 - Present

- Engineered a customized grammar and spell checker for the Shona language, utilizing insights from 20+ linguistic resources to enhance accuracy and user experience in digital communication tools.
- Partnered with leading professors, morphologists, and machine learning researchers to identify complex linguistic patterns and optimal approaches for language processing.
- Collected, cleaned, and analyzed 6 large Shona datasets, applying advanced algorithms to improve the precision and reliability of the grammar and spell-checking tool.

ASL-GLS HYBRID SIGN LANGUAGE TRANSLATION AND GENERATION SYSTEM

July 2024 - Present

- Created a low-resource sign language dataset by recording 65+ hours of classroom videos and audio at Ashesi University to support inclusive communication tools for the Deaf and Hard of Hearing (DHH).
- Designed a system to translate blended Ghanaian and American Sign Languages, collaborating with 4 interpreters and 3 deaf students to bridge communication gaps and promote accessibility.
- Conducted research on sign language technology for underrepresented languages, offering insights to support similar initiatives across Africa.

ADDITIONAL SKILLS

Technical Skills: Advanced in Python & Java, LangChain, GPT4, HTML/CSS, C/C++, SQL, Gitlab & GitHub, Agile Methodologies, Research & Development, Visual Studio, Flutter, VHDL

Languages: Fluent in English and Shona

Certifications & Training: Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning(Coursera), Introduction to Software Engineering(Coursera)
